## FREE PICTURES

During the evening we will take pictures (phone camera) from behind the disco stand. We will start this after your photographer has gone (usually just after the First Dance), and continue throughout the evening. Any good pictures will be emailed to you a few days after your wedding . So you will get some pictures of your guest's on the dance floor.

**THERE IS NO FEE FOR THIS SERVICE**

## BIG FINISH

At the end of the night we invite you, the bride and groom, to the dance floor along with all of your guests for the "Big Finish" song. This will usually be "New York", or "Time of my Life", or any other song that you choose.

We want you and your guests to remember your wedding reception as being one of the best ever.

## FULL DANCE FLOOR

We always aim to keep as many on the dance floor as possible from start to finish by playing the best floor fillers from all decades.

We have a vast collection of music tracks at our disposal and we are also happy to accept your song list.

Whatever your taste in music we are sure to have it in our repertoire....

## PARTY TUNES

We also have all the party/action tunes in our collection that guests really love to get involved with.

The party songs add fun to any occasion and all ages take part.

We also have, of course, pop, dance, reggae, rock n roll, motown, house, garage, soul, r n b, and any other genre you can think of.....

## UP LIGHTING

These light units add colour and party atmosphere to any special occasion. They can change colour to the beat of the music, or be set on just one colour to match the colour theme of your wedding.

Either way they will look great.....

## CONFETTI CANNON

We will release a hand held 16" confetti cannon during the first dance, with the venue permission of course. It looks great in the photos.
