WELCOME

We understand you have been dreaming about your wedding day for a long time; that special day when all your ideas and planning come to life. With Just Big Smiles photography, we will creatively capture all the love, laughter and emotion from your preparation in the morning until the music finishes, providing you with memories that will last a lifetime allowing you to revisit the most precious moments of your Wedding Day throughout the rest of your lives.

THE DETAILS

We understand that your wedding day is an exceptional day for you both. Jim & Karl are experienced wedding photographers who know how to keep you relaxed throughout your day. We know how much thought you have put into your day so you can be assured we will photograph all the details of the day, to create memories for years to come.

GETTING TO KNOW US

We offer a complimentary pre-wedding shoot. We feel this is essential for you both to spend time, (only a couple of hours), with us before your wedding day, allowing you to get to know us, and to allow you to feel comfortable in front of the camera before your wedding day.

ON YOUR WEDDING DAY

A creatively crafted image speaks a thousand words, and that's why you need professional photographers to help you take care of your wedding day.

We are friendly professionals, and as such, you will get the best service to make your wedding photography an enjoyable experience.

Your wedding will be unique which is why we can offer a fully customisable service to suit your day.

Karl and Jim are highly experienced in offering you new and exciting ways to get amazing photographs from any venue.

MEMORIES FOR YOUR GUESTS

During the evening we can put up a backdrop of your choice, set up the studio lights and bring a wide range of props so that you and your guests can grab a prop and strike a pose. Your guests will receive a 6x4 picture, in a frame and protective bag allowing everyone to have a nice memento of your day to take home with them and put on their wall.

EVERLASTING MEMORIES

As technology moves on from CD to USB to cloud, one thing that has never expired is the humble wedding album, something that you can open regardless of technical advancement and enjoy whenever you like. We offer a wide range of lay flat albums with seamless panoramic pages and a wide range of large wall prints that will always put a smile on your face.

You can also select eight of your favourite pictures and we will create a concertinaed thank you card, a beautiful keepsake for all of your guests
