

Stretch Tents

Product and Event Space Concept Presentation

Stretch Tents

As a company that demands excellence as standard and who can boast clients such as Nike, British Gas, The Jockey Club and Castrol (1000mph World Land Speed Record attempt) we understand the importance of the aesthetic.

We create stunning entertainment spaces that enhance and include rather than obscure and exclude.

Creativity and innovation is at the core of our ethos, stretch tents offer a new and exciting alternative to the standard and traditional event space.

Stretch tents are fast becoming the event industry's tent of choice. Their flexible nature and ability to create multifarious forms and shapes give them tangible advantages over standard marquees and traditional tents.

Our stunning tents offer a striking backdrop for any event, creating impact from the moment the first guest arrives. Used regularly for sporting events, private parties, festivals, weddings and corporate launches they provide a chic and flexible solution for any occasion.

Make an impression from the first moment your guests arrive.

As a company we also supply event solutions to arts companies, festivals, corporate launches and sporting events.

Our dynamic tents alongside our event management expertise give a personalised and tailored feel to each and one of the many advantages of the stretch tent system is its ability to be rigged with its sides open, however, should the weather prove to be too much, the sides of tent can be brought down or even have side panels attached.

(Heating and air-conditioning can also be provided).

We have stretch tents of varying sizes which cover anything between 25m² and 500m².

These will cover between 20 and 800 people (estimate) depending on how the canopy is erected. However we can also combine our stretch tents to create massive entertainment spaces to suit your requirements.

We can combine canopies to find the right size for your event.

Stretch tents can be rigged off buildings, over trees, onto trussing systems and much more or just on flat ground.

The Product

Colours available: White. Black. Chino. Platinum. (Other colours available with advance notice)

100% water proof

Wind rated up to 60mph (Some setups have lower wind rating)

Fire retardant (British Standard BS 3424.5)

The fabric manufacturer is ISO 9001/2000 accredited.

Environmental: ISO 14001 accredited.

Freeform Flex® 170 is manufactured from a high tenacity Polyester Interlock stretch fabric, coated with a stretch polymeric.

Freeform Stretch Tents can be rigged in almost endless shapes and forms with any number of sides up or down.

One of the many advantages of the stretch tent system is its ability to be rigged with its sides open giving guests the feeling of being within the environment such as garden or beach.

We work with the client to judge what would be the most ideal set up taking in to account the event brief and forecasted weather.

all sides up example setups.

Three sides down, front open example setups

One side down example setups.

All sides down example setups.

Stretch Tent Canopies

We can cover anything from terraces to swimming pools to give that extra bit of protection from the elements or to just add that sense of event to your party.

Colours

We can provide stretch tent structures in a variety of colours. We will work with you to find what size and colour best suits your needs.

Want impact? We can bring it. We can rig big and high and make your event space a space to remember for the right reasons.

Interiors Examples: Arabian Interior

Elegant contemporary interior.

Extended Event Space

On a number of occasions we have been asked to create 500-3000 square metre spaces for clients such as Thorpe Park, Castrol, British Gas and the Covent Garden Dance Company. These created massive event spaces to accommodate large audiences for private and corporate clients.
