A SENSE OF HISTORY

By choosing a superb historic location for your celebrations, you bring the echoes of the people

and events that have shaped it through the centuries, to give your day a deeper, more meaningful quality.

Built in the 1540's by King Henry VIII, Pendennis Castle has stood for five centuries protecting the British mainland from foreign invaders. It is said that the Spanish Armada of 1588 was first sighted from Pendennis. Its superb position as a look-out today gives it extensive sea views, making it one of the most enviable wedding day locations in the land.

At Pendennis Castle, say 'I do' in the atmospheric surroundings of the circular stone keep, charmingly contained within an outer wall and surrounded by a secluded grassy chemise.
