

About us, our elevator speech.....

A uniquely stylish mobile wine bar for all kinds of event providing expertly sourced wines and fizz from independent, family-run vineyards across the world.

We love wine. You love wine. Let's get together. Vin Van Voom..... The unique mobile wine bar.

We love good wine, we love good times. But we've noticed that the two don't always go together. Turn up at a festival, a corporate event or a big party and it's usually the same old plonk, served without care, or knowledge of the grape.....bad wine for us means bad times, which is maybe ok for some, but for us ok is not good enough..

So we've done something about it. Meet Vin Van Voom.

Invite our wine experts to your party

We bring high quality wines and fizz, uniquely sourced by our very own wine expert, to where we're needed most. Your event. Our wines are a bit special, sourced from family-owned vineyards, chosen for drinkability, sophistication and value for money. And served with smiles, passion and expertise. Your wine-loving guests will be impressed.

Event catering with style and sophistication

What's more, we bring you all this in our rather retro (but spanking new) trailer based on a 50's-style Airstream. Bottles of pleasure, with bucketfuls of style. And worry not if you don't know your Asti from your Malbec - we'll help you choose exactly the right wines for your occasion. Even if you are a bit of a wine buff, we think you'll still be excited and intrigued by what we're offering. We are.

So, if good wine is your idea of a good time, let's get together and put a little Vin Van Voom into your special event.

Vin Van Voom.

Kate Goodman

Kate's our wine guru. Her love of wine began when she spent her University holidays working in the French Alps, the Ardeche and the culinary epicentre, Lyon. Wine remained a great pleasure throughout her subsequent career in accountancy with KPMG, and when she joined start-up company The Skills Factory she also began studying for her professional wine exams whilst also working at Oddbins in her spare time. It was inevitable that she would make wine her career, and in 2003 she opened Reserve Wines, an award-winning shop in Manchester, which has expanded into Corporate, Wholesale and now worldwide wine sales through www.reservewines.co.uk In 2012 she appeared alongside Michel Roux Jnr as the regular drinks expert on the well loved BBC Food and Drink show. Now, as a founding member of the Vin Van Voom team, she brings these years of passion, industry knowledge and wine expertise to your event.

Anna Tutton

Anna's passion for food and wine started early during her family's travels around Europe, America & Australia. Subsequent 'gap year' living in France and Spain saw her discovering a penchant for wines and developing a knowledge of the processes and terroirs of wines. But all good things come to an end, and Anna returned to the UK to take up a career within stock-broking, where she became the 'go to' girl for selecting wines for corporate lunches and dinners, further expanding her knowledge and understanding of the grape. During another period of travelling, Anna spent time in New Zealand, establishing an internet café in Wanaka on the South Island, and gaining in-depth knowledge of New Zealand's exceptional red wines, most notably Pinot Noirs. Returning home again, she continued her creative approach to life by establishing a new business – Tread – which produces household items such as furniture, picture frames and outdoor planters, from recycled tyres. As Tread evolved, Anna found spare time to devote to her love of wine and took up residency in Kate Goodman's Reserve Wines shop. Here she achieved recognised wine qualifications – she's currently at WSET level 2, and plans to obtain her Diploma. She's excited to be in an industry she loves and is passionate about making great wine accessible and enjoyable for everyone. She sees producing her own wine, one day, as an achievable goal.

Mark German

Mark's our expert in corporate affairs, operational matters and all things of a technical nature having spent most the majority of his career at senior leadership levels within Airlines and Holiday Companies. His background is Aviation, where he began his career with British Aerospace and Airbus travelling the world. Eventually he settled down and joined First Choice Airways, leading the Engineering and Maintenance divisions. As part of the Airlines and Tour Operators leadership team Mark was responsible for developing the long haul strategy, resulting in the decision to be the first European Airline to order the Boeing B787 'Dreamliner' airplane in 2005, subsequently leading the project as 'Head of 787'. With the merger of the German and UK Tour Companies (creating the worlds largest holiday company), Mark's leadership role expanded, playing a significant and prominent role in developing new concepts and innovative solutions with Boeing, and negotiating a \$4.5Bn order for next generation aircraft. You might ask: "What does all this have to do with wine?" Well, Mark - in addition to being a lover of good wine and food in general - has spent many years living and working in countries recognised for their wine (Spain, France, West Coast USA, New Zealand, Australia to name a few) being wined and dined by major aircraft companies and airlines. In the corporate world they don't do things by halves, and having spent most of his recent life residing in Seattle with Boeing Mark has got to know more about great wines from the West Coast of the USA than anyone else in our team. What's more, Mark's high-level experiences in corporate life have given him the knowledge Vin Van Voom needs to provide an exceptional service to customers and businesses alike.
