

WORTON HALL

WEDDINGS

Accommodation

OVER SEVERAL INSPIRING LOCATIONS

Worton Park offers a selection of beautiful stone cottages perfect for friends and family.

Landscaped gardens, country walks, onsite pool and rural location offer a chance to escape for the weekend.

“ We had an amazing time there, everything was perfect. The farm was wonderful & quiet set in an idyllic green landscape; just the perfect location. ”

Your Ceremony IN IDYLIC SURROUNDINGS

Get married outdoors in a romantic Cotswold garden setting. If the weather is unfavourable or you fancy a winter ceremony, marquees can be arranged.

The gallery and Worton Hall itself are also fully licensed, perfect for those who prefer everything under one roof.

“ Worton Park is truly amazing, unique and set in beautiful countryside. If you are looking for something special you have found your perfect venue! ”

The Venue

FOR YOUR PERFECT DAY

Originally a barn Worton Hall has been rebuilt in stunning contemporary Cotswold stone. The building boasts arrow slit windows, high ceilings and beautiful wooden chandeliers.

The venue offers a blend of spacious elegance combined with state of the art technology, allowing you to personalise lighting and sound.

“ Our guests commented on the beauty of Worton Park. It provided a perfect location for our wedding and we are so pleased that we chose you. ”

Food and Drink IN WORTON HALL

A stunning feature of our venue is the handcrafted, oak Cresswell Bar. From here we are able to source and serve a variety of drinks to suit individual tastes. We pride ourselves on working with professional, high quality caterers ensuring the food and service is always of the highest standard.

“ Your kindness and flexibility allowed us to bring our imaginative ideas to reality with ease. ”

Being Green AT WORTON PARK

Everything we do at Worton Park reflects our passion for the environment.

Event waste is carefully recycled on site; all water waste is treated in our reed bed system and heat provided to the park from our efficient wood burners.

Please feel free to ask any of the team about our joint venture partnerships in renewable energy and recycling.
