Supreme Goalpost Disco

The Supreme Goalpost Disco Package is a unique stylish goalpost show for medium and small sized venues, this show is very popular for weddings and birthdays, the show features the beautiful hand crafted mirror mosaic front jewel screen which provides safe coverage of cables & amps. The music played on the night will sound amazing as it is played through our world class sound system from NEXO... the lighting is a nice blend of illumination and effects with a very pleasing rainbow colour mixing system guaranteed to get the dance-floor jumping.

Sound System: Pioneer Controller + NEXO 3000 watts

Stage Size: 3 meters x 1.5 meters / 10 feet x 5 feet

Venue: Medium to Small (up to 200 people)

Approximate Set Up Time: 45 Minutes

Road Crew: No

Power: 1 x 230v

Lighting Rig: LED Lighting/Strobes + Up-Light Projectors + Small Lasers

Wizard Supreme Disco

The Wizard Supreme Disco Package is suitable for small to large sized venues. The show features two intensely powerful Wizard Rush effects which are presented on cloaked tri-pods, each Wizard stands from 8ft to 11ft high and will animate colours, beams and graphics all around your venue and includes a unique curved screen backdrop which is illuminated with ultra violet and multi-colour lasers to harmonize with the show. The full effect of this show is immense to say the least and the show creates a magical 3D beam and graphic light show when used with haze... The music played on the night will sound amazing as it is played through our world class sound system from NEXO.

Sound System: Pioneer Controller + NEXO 3000 watts

Stage Size: 4.5 meters x 1.5 meters / 15 feet x 5 feet

Intelligent Mood Lighting

Intelligent Mood Lighting is placed around your room to paint the walls and ceilings in any colour you wish.

The clever lighting system also colour coordinates with all the disco lighting themes to harmonise with the moods of the music, as the evening progresses it also helps to energise the room to stimulate the dancing.

*** See how the room colours coordinate with the ceiling projector colours ***

Mood Lighting: It is a well-documented fact that people's moods are affected by the colour of their surroundings. A typical wedding will have several stages of mood lighting, from relaxing ambient colours during the early evening to more vibrant colours later evening... these large mood lighters are colour and brightness controllable and allow me full control over the venues lighting system which helps me create great atmospheres that follow the mood of the music and the dance floor.

Venue: Small To Large

Approximate Set Up Time: 30 Minutes

Power: 1 x 230v

Each Lighter Specification: RGB rainbow colours and equivalent to a 1000 watt tungsten lamp
