GraphiStudio Wedding Book

£1275.00

Please contact the studio for an in-depth breakdown of the photographic coverage from each package

We shoot a selection of different styles from classically romantic through to fun, modern and candid images, allowing you to have a selection of images to choose from, making this as individual as you both, and as special as your Wedding Day.

Imagerooms' Wedding Book is an alternative to traditional albums, and is manufactured by GraphiStudios of Italy. These books transform your images into a Personal Storybook. The Wedding Book is bound, with a choice of beautiful cover options.

Approximately one week after your wedding your beautiful images are uploaded onto our web site for you and your guests to log on and view. At the same time a DVD containing all those images are sent to your home so you can view them full screen on your laptop, tablet or smart phone.

From these images (usually well over 500), you will select your favourite ones for inclusion in your GraphiStudio wedding book. Books are available in many different sizes and beautiful styles.

On receiving your images choice, we will draft a reportage layout and e-mail this to you (in pdf format) for you to approve before the final 'print and bind' process is authorised.
