

HI TEC

WEDDING SERVICES

Here at Hi Tec Weddings, we strive to make your big day as perfect as you would want it to be. We take a great deal of care and attention to every detail leaving nothing to chance.

We understand that you only get one chance to get it right, so we'll make sure that we do. We'll liaise with you at every step to try and make it perfect for both of you, your family & your friends.

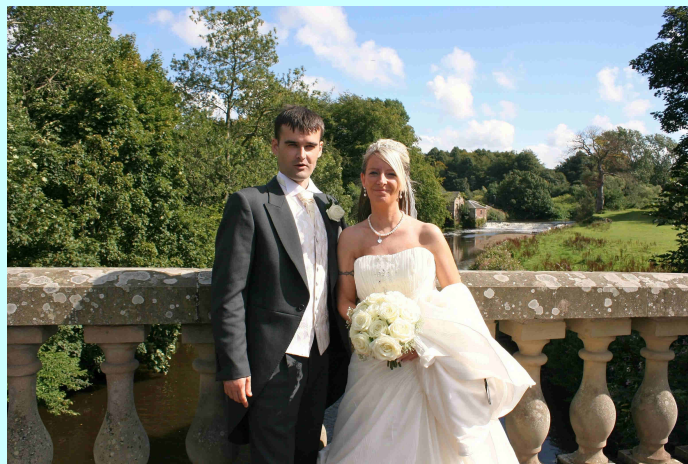

Whether it's photography, videography or entertainment, or a package of all 3, you can be assured that your satisfaction is our top priority.

Photography

The day starts early for the bride, and may well do for the photographer too. We can attend the bride's (and groom's) preparations before moving on to the ceremony, maybe catching the groom, guests, and wedding party arriving prior to the arrival of the bride.

After the ceremony, the bride and groom can have some more formal photos taken with the wedding party and guests, either around the location of the ceremony, or at a location nearby.

Soon, it'll be time for the speeches, the cutting of the cake, and on to the first dance. In between, you might like some more photos of the daytime attendees, or the evening guests. If you're desperate for more photographs, you might wish the photographer to stay on for an extra hour or two – just to be sure.

Once all of the images are checked, and within a couple of weeks, you will receive a DVD or USB drive containing the photos. Albums, photo books, online slideshows or galleries can all be provided.

You'll find some nice slideshows on our Youtube page at
www.youtube.com/user/HiTec1315

Videography

High definition video of the ceremony, the speeches, the cake cutting, the first dance, and even video congratulations of the guests can all be included in a video package from Hi Tec Weddings.

A DVD playable on a standard DVD player, and a USB drive containing the HD video file will be made available to you upon completion of the editing process. The video can also be uploaded to social media for family and friends to view.

You'll find some nice videos on our Youtube page here
www.youtube.com/user/HiTec1315

Entertainment

A Hi Tec Wedding disco can take place in a small room or a large hall, so we'll bring along the right equipment, and the right music, to suit the surroundings and the guests. Every kind of music can be made available.

If you have any favourite music that you feel just “has to be played”, then let us know and we'll do our best to source it for you. This would of course include any first and last songs that are important to you.

Other Things To Consider

A photo slideshow of your wedding photos can be shown on a large screen projector system during the meal or during the evening.

A PA system can be made available for speeches.

A free Engagement photoshoot may be available at a time of your choosing.

Extra DVDs can be supplied – each with a photo of the Bride & Groom printed on them, for family & friends to keep.
