PRICING

The question on everyones lips.... how much?

This is indeed a really tricky questions for me to answer on such a general basis.

Following an initial chat / meeting / zoom call to discuss your stationery we will create a bespoke, tailored proposal which gives an outline of the items required, the general design and process. the cost for designing, and an estimate for printing and materials.

The proposals are always itemised so you can see exactly where your money is being spent and utilised.

The design fee:

We charge a set design fee of £1000 as standard which acts as a deposit. This covers our creativity, experience, time and minimal overheads.

Printing costs are separate which means you only pay what is required for your stationery and numbers.

On Average:

An easy average to give is that for a FULL WEDDING PACKAGE including Save the Date, Invitation Suite, Wax seals, Envelopes and bespoke liners, Labels, Stickers, On the Day Stationery, Table Plan, Place Names, Table Names and Order of Service etc etc.. literally EVERYTHING you will require for your wedding, our couples ON AVERAGE spend between £2800-£5000 (we do not currently charge VAT).

This INCLUDES the design fee, printing, materials, and delivery of all items to one UK address.

Got a budget?

Because our process is so bespoke then we can of course try and work to your budget just get in touch and we'll see what we can do.

Remember though that we offer a creative process and therefore have to charge for our time (£1000) as well as the printing costs.

Extras?

Sometimes couples spend more, sometimes couples spend less - it really does all depend on your ideas, package and budget.

Things like bespoke Christmas crackers, favour detailing, boxes, foiling and specialist printing processes (or hand finished designs like some of our pop up creations or bespoke caricatures) require additional fees but these are always discussed during the initial call or creative process and ALWAYS before any final decisions are made.

House Collections:

You can find a Price PDF at the bottom of each house collection webpage which gives you a basic outline of what each item will cost.

All of these ranges are fully customisable though so do get in touch as we have many ways of adjusting the specifications to reduce fees if necessary.

The Proposals:

Once we have drawn up a proposal for you rest assured that we are usually fairly savvy with our estimates and its very rare that we will go over the amount stated. If the costs look like they may require additional funds we will ALWAYS discuss this with you before any designs are finalised so they can be adapted or changed if necessary.
