

Our 5 Step Wedding Process

Battle House of Flowers promises more with an eye on style. We excel at wedding floristry that stands out from the crowd and puts the WOW into your special day. After all, we want what you want – the perfect wedding.

Over the years we have developed a simple 5 point plan that really works for our brides, ensuring we can translate your dreams into fabulous flowers and at prices that will add smiles on the day.

Stage 1 – telling us what you want

This is a personal consultation where we listen carefully and take lots of notes about exactly what you would like – we aim to understand as much as we can about you. During this meeting we will discuss the venue(s) and identify outline budget requirements. We want to create **WOW** wedding flowers, whatever the budget, and it's important to know your aims right from the very beginning.

Stage 2 – pictures and options

Working with your colour scheme and theme for the wedding and using all we have learnt from the first meeting, we will go shopping on our flower stand and from our huge network of suppliers to make a flower choice from seasonally available flowers. We will email pictures and options – usually within 48 hours of our first meeting.

Stage 3 – designs and quotes

After feedback and adjustments from you we get to work on the designs for bridal flowers, church flowers and reception decorating. You will receive a **detailed quotation** of costed designs.

Stage 4 – confirmation and goody bag

After discussion and refinements, we confirm the booking (secured by a £50 deposit) and deliver to you a fabulous **goody bag** of relevant offers and promotions from our affiliate partners, all of whom have been selected because they are great at what they do and are leaders in their field.

Stage 5 – delivery and payment

Two weeks before the **Big Day** we make contact to finalise every little detail and re-confirm the order ensuring any last minute changes (and there usually are some!) are captured and accommodated. We check delivery instructions and finalise hire arrangements for any elements being loaned or hired out. Final payment is taken and flowers are ordered.

The rest is magic!

At Battle House of Flowers, we love working with brides for their weddings. This is such a special celebration and our great team of experienced wedding florists can create super-chic wedding bouquets for your big day.

So whether it's simply flowers for the wedding party, or for the church and reception, we will ensure that everything is truly stunning with unique designs guaranteed to get gasps from your wedding guests..

We have a large portfolio of wedding designs in our shop in Battle, East Sussex, so please drop by to browse our wedding flower photo collection or visit our website for more information.

A testimonial from one of our happy wedding clients...

"Thank you VERY much for doing such an incredible job on the flowers for our wedding this weekend!! Everyone was very complimentary about my bouquet and the girls and I wanted to keep it so much that I did!! It is now safely in London! Thank you so much for being part of our very special day, it was just perfect! And our mothers also loved their bouquets which are safely in their homes reminding them of our precious weekend! Thank you again, Suzanna and Lee xxx"
